# UNO PRIME + PROTECT

ULTRA HIGH GLOSS  
AND PROTECTION

FORMULATED AND PRODUCED  
BY RUPES IN ITALY

## SURFACE PRIMER AND PROTECTION

UNO Prime + Protect prepares surfaces for nano-coating application, yields ultra-high gloss, and long-term durable coverage. Suitable for use all three lines of RUPES polishers: Random Orbital, Gear-Driven Orbital, and Rotary, and also by hand if necessary. The proprietary formula, developed and blended in-house by RUPES, uses ultra-fine abrasives for finishing and durable fillers to cover any remaining fine defects after compounding and polishing. UNO Prime + Protect can be used before the installation of paint coatings as a final polish, or used as a stand-alone polish with durable protective properties lasting up to 12 months.

## FEATURES AND BENEFITS

- Complex blend of multi-functional, high-tech ingredients
- Provides a semi-durable layer of solid material that acts as stand-alone protection or primer for nano-coatings
- Universal across all the RUPES BigFoot Polishing Systems
- Last up to 12 months when used as last step protection  
Increased gloss and surface slickness
- For best results, use with RUPES Ultra-Fine White Finishing Foam Pads
