REVEAL

RESIDUE REMOVER

Formulated for surface preparation and cleaning

REVEAL LITE is surface preparation and cleaning spray specifically formulated to remove compound and polish oils, residues, waxes, non-durable fillers, and other surface contamination remaining on surfaces before or after correction. Use REVEAL LITE after washing, but before compounding or polishing, to remove remaining waxes or other non-durable surface contamination.

Use REVEAL LITE after compounding or polishing to remove residual polishing oils and show the true nature of the results before applying your choice of protection. It also works great as an exterior glass cleaner!

REVEAL STRONG is formulated to remove the most stubborn residues, durable fillers, adhesives, surface oils; REVEAL STRONG shows you the true nature of the surface by removing anything that can mask defects. The powerful formula is intended only for use on fully cured paint, hard and chemical resistant surfaces, or similar applications. When you need to know if the surface is truly corrected, reveal the truth with RUPES REVEAL STRONG!

Tips for success REVEAL LITE and REVEAL STRONG:

1. REVEAL LITE, spray generously onto the surface to be cleaned (if surface is freshly painted, spray onto a towel then wipe, do not spray directly on the surface). REVEAL STRONG, spray onto a towel then wipe, do not spray directly on the surface.
2. Wipe immediately with a clean, soft, microfiber polishing cloth until dry.
3. Inspect surface and repeat treatment as necessary
